SERUM LIPASE

INVESTIGATION

RESULT

UNITS

NORMAL RANGE

LIPASE
(Method: Enzymatic)

69.48

U/L

UPTO 64

INTERPRETATION

- Certain levels of lipase are needed to maintain normal digestive and cell function. Abnormally high levels of the enzyme in your blood can be a sign of a health problem.
- The serum lipase test is used to measure the amount of lipase in the body.
- The lipase test is often ordered at the same time as the amylase test.
